

Dear parents,

Thank you for participating in the CENTER NAME YEAR Session 1! During this session, we launched a new pilot program. This program was a horsemanship component that extended your child's total lesson time to (up to) 90 minutes. During the horsemanship time, students learned to lead, halter, bathe, and groom their horses. They also learned different foods that horses eat, different parts of the horse, and became very familiar with horse communication and safety while practicing becoming an assertive leader and gaining new sensory experience. Every activity educated the student about horses, reinforced barn safety, challenged their senses, and encouraged them to use verbal communication skills, leadership skills, recall information from previous weeks.

As this is a new program we were 'testing' this session, we would love to have feedback from you! Your response enables the instructors and staff to see if the horsemanship program is benefitting our clients, what aspects of the program are doing well, and what can be improved. It would be extremely helpful if you could fill our short survey about our horsemanship program.

Childs Name: _____

What was your child's reaction to the horsemanship program and the extended time they spent with the horses?(Did they look forward to class? Did they have fun during class? Etc.)

How did the (up to) 90 min class affect your child? (Was it too long? Was it too short some days? Did you feel it was a fun way for them to get outdoor activity and exercise? Etc.)

Do you have any comments or concerns?

Do you have any questions about the horsemanship program?

Thank you for your time,

The Saturday Instructors:
